Summary

I am a senior application and integration architect with over 10 years of experience, currently leading cross-functional teams as both a technical leader and people manager.

I started as a mobile and web developer and still code when possible, especially in iOS and front-end technologies, later evolving into architectural roles on large-scale, cloud-native projects.

Since May 2024 I've supported the growth of ~20 professionals as a second-line people manager, and since April 2025 I serve as Public Sector Strategy and Transformation Leader, driving digital innovation for government clients.

I have also gained experience in pre-sales solutioning, shaping SaaS and data-driven architectures, and regularly leveraging AI tools to enhance delivery and design.

With a strong analytical mindset and a focus on clean code and developer experience, I specialize in building scalable, secure systems that align business goals with modern software architecture and cloud platforms.

Skills

CORE COMPETENCIES

- ◆ **Architecture & Leadership:** Digital transformation, team enablement, architecture governance, public sector delivery
- ◆ **Strategy & Management:** People management, strategy execution, stakeholder alignment, agile leadership

TECHNOLOGIES

- ◆ **Mobile Development:** Native iOS (Swift), Native Android (Kotlin), React Native, Flutter
- ◆ **Web Development:** React, Angular, Vue.js, PWA
- ◆ **Cloud & DevOps:** AWS (Certified), Docker, CI/CD, API Security (OAuth2, JWT)
- ◆ **Architecture & Design:** Scalable Mobile Solutions, Micro-Frontend Architectures, Performance Optimization & Responsive Design, Microservices, Data Visualization

PROGRAMMING LANGUAGES

Swift ◆ Typescript ◆ Javascript ◆ ES6 ◆ HTML ◆ CSS ◆ Kotlin ◆ Java ◆ Python ◆ R ◆ Matlab

Work experience

Senior Application Architect, Technical Leader & People Manager

2018 to present

IBM, Milan, Italy

ASSIGNMENT HISTORY

- ◆ Jun 2024 – present, one of the main Italian government agencies
Role: architect and technical team leader, to design a UI kit with Web Components (Lit) and Typescript to unify frontends across multiple apps, laying the foundation for a micro-frontend architecture and consistent design system, documented with Storybook and integrated via Angular. Presented technical solutions to executive stakeholders, aligning business goals with architecture choices and ensuring consensus. Delivered workshops and technical presentations to diverse audiences.
- ◆ Sep 2022 – present, one of the main Italian government agencies
Role: architect and technical team leader, to develop responsive React and Typescript web apps for healthcare data visualization. Delivered 3 apps: one public app and two private apps, optimized frontend performance for hundreds of thousands of daily users. Collaborated with clients during onboarding and deployment phases, and guided stakeholders through technical decisions and solution demos, reinforcing trusted advisor role.
- ◆ May 2022 – Nov 2022, one of the main Italian government agencies
Role: architect and technical team leader, to build a WebGL Unity app integrated with a React web app for real-time warehouse analytics via IoT sensors. The app created a 3D digital twin of the warehouse, visualizing sensor data on box positions and triggering alerts on unexpected movements. Explored AR-powered navigation for future operations and led proof-of-concept demos for enterprise clients.
- ◆ Dec 2021 – present, one of the main Italian government agencies
Role: architect and technical team leader, to customize and migrate Moodle to the cloud for training and certification of thousands of public sector employees. Delivered custom UI components, integrated Single Sign-On, and optimized the platform for scalability and cloud-based monitoring.
- ◆ Apr 2021 – Dec 2022, one of the main Italian government agencies
Role: architect and technical team leader, to develop native iOS and Android apps to validate Italian and EU Digital Covid Certificates. Both apps, used by millions, handled real-time data and ranked first in app stores during peak periods.
- ◆ Feb 2021 – Jul 2021, one of the main Italian insurance companies
Role: architect and technical team leader, to build a native iOS app to detect driving style using device sensors, and a GraphQL middleware connecting app and backend. The app collected real-time data from sensors (accelerometer, gyroscope, microphone, Bluetooth) to analyze user movements and driving behavior.
- ◆ Jan 2020 – Jan 2021, one of the main Italian engineering and construction agencies
Role: architect and technical team leader, to develop a native Android app for bridge inspections integrated with Maximo via REST APIs. The app enabled inspectors to collect structured data, attach photos, and report issues on-site. Deployed to production, used daily by inspectors, and later migrated to AWS.
- ◆ Sep 2018 – Dec 2019, one of the main Italian universities
Role: architect and technical team leader, to develop a PWA with Angular for Smart Campus IoT interaction. Allowed students to enter the campus, control smart devices, and book rooms. Deployed to production and used daily, it enhanced automation and campus management.

I authorize the use of personal information, including sensitive ones, in accordance with the effects of Legislative Decree 196/2003 for the purposes of this notice of application.

Languages

- ♦ **Italian:** Mother tongue
 - ♦ **English:** Fluent
- Certifications:
- ♦ TOEFL: 111/120 (C2 CEFR Level)
 - ♦ First Certificate in English (FCE), Grade A (C1 CEFR Level)

Certifications

INDUSTRY CERTIFICATIONS

(Recognized certifications from major providers and organizations)

- ♦ AWS Certified AI Practitioner (AWS) – 08/2025 – [Public URL](#)
- ♦ ITIL 4 Foundation – 07/2025 – no public URL
- ♦ AWS Certified Solutions Architect – Associate (AWS) – 10/2024 – [Public URL](#)
- ♦ Team Solution Design (IBM) – 09/2019 – [Public URL](#)
- ♦ Architectural thinking (IBM) – 09/2018 – [Public URL](#)
- ♦ IBM Certified Mobile Application Developer (IBM) – 11/2015 – no public URL

ADDITIONAL COURSES

(Selected courses and certifications from other platforms)

- ♦ AI Agents & Workflows - The Practical Guide (Udemy) – 09/2025 – [Public URL](#)
- ♦ Local LLMs via Ollama & LM Studio - The Practical Guide (Udemy) – 06/2025 – [Public URL](#)
- ♦ Understanding Typescript (Udemy) – 05/2025 – [Public URL](#)
- ♦ Snowflake - The Complete Masterclass (Udemy) – 03/2025 – [Public URL](#)
- ♦ Data Warehouse - The Ultimate Guide (Udemy) – 01/2025 – [Public URL](#)
- ♦ Building Augmented Reality Apps in RealityKit & ARKit (Udemy) – 05/2023 – [Public URL](#)
- ♦ SwiftUI Masterclass 2022 - iOS App Development & Swift (Udemy) – 09/2022 – [Public URL](#)
- ♦ Complete C# Masterclass (Udemy) – 08/2022 – [Public URL](#)
- ♦ GraphQL by Example (Udemy) – 12/2021 – [Public URL](#)
- ♦ Clean Code (Udemy) – 11/2021 – [Public URL](#)
- ♦ Git & GitHub - The Practical Guide (Udemy) – 11/2021 – [Public URL](#)
- ♦ MongoDB - The Complete Developer's Guide 2020 (Udemy) – 12/2020 – [Public URL](#)
- ♦ NodeJS - The Complete Guide (MVC, REST APIs, GraphQL, Deno) (Udemy) – 09/2020 – [Public URL](#)

Work experience

Application consultant and developer – 2013 to 2018

IBM, Milan, Italy

ASSIGNEMENT HISTORY

- ♦ May 2018 – Sep 2018, one of the main Italian catering industries
Role: technical team leader, to develop two native apps (iOS and Android) for remote reservation, payment and collecting functionalities; the apps were successfully deployed to production and were used daily by thousands of drivers, collecting data for marketing purposes
- ♦ Nov 2015 – Jul 2018, one of the main Italian banks
Role: development of three web applications with AngularJS and Angular to manage risk analysis and risk simulation tasks; the apps were successfully deployed to production and used by internal users for complex data analysis of financial risk
- ♦ Sep 2013 – Dec 2015, one of the main Italian banks
Role: development of a hybrid mobile app for home banking functionalities; the app was successfully deployed to production on three platforms (iOS, Android, Windows phone) and used daily by hundreds of thousands of bank customers.

Personal projects

- ♦ Development of multiple iOS native apps
Realized several applications and proof-of-concepts (POCs) in SwiftUI, keeping up with the latest iOS versions and capabilities (for example Core Data, Maps, Geolocation, in-app notifications, geolocated notifications). Designed the entire UI and implemented the applications using modern architectural patterns, particularly MVVM.
- ♦ Study of Augmented Reality / Extended Reality, Computer Vision, and data-driven applications, with proof-of-concept apps developed mainly with iOS native libraries (ARKit, RealityKit) and Unity. Explored use cases such as interactive AR navigation, AR-powered object recognition, and small-scale AI prototypes for classification and analytics.
- ♦ Development of a static responsive website for think tank researcher. Designed and developed the full interface and implementation using GatsbyJS with ES6, scss with Bootstrap and Netlify CMS.
- ♦ Development of a responsive SPA for a real estate agency. Designed and developed the entire application using Angular 6 with Typescript, HTML5 and css with Bootstrap.

Education

Master's degree, *Mathematical Engineering* – 2013

Politecnico di Milano, Italy

Bachelor's degree, *Mathematical Engineering* – 2011

Politecnico di Milano, Italy
